About us

We like to think we know what we're talking about when it comes to packaging.

Established in 1926 we are proud of our heritage and of the extensive knowledge, experience and expertise it allows us to pass on to our customers. Whether it's supplying packaging materials, providing bespoke export packing solutions, transit and storage or defence packing, we deliver every time.

A Nottingham-based Company, we are ideally placed to service the entire UK economy. Our strategic location, adjacent to the ring road to the south west of the city, is home to our 70,000 sq ft facility, which is dedicated to the provision and application of transit protection for products bound for the home and export markets.

With a staff level approaching 100, we are committed to providing a high quality, rapid response service. But don't take our word for it, Bampton Packaging is accredited to BS EN ISO9001:2008 and Investors In People, ISPM 15, D Pkg A/DR/14 Package Design and DGS PS5104.

So whatever your packaging needs you can be sure that Bampton will keep your product and your reputation intact.

Pleased with move from

***** (competitor) to Bampton,

pleased with new ideas and

pack designs.

Had to send this fax to say thank you all for pulling out the stops to supply our order number 8924, it was a great achievement and very much appreciated.

Transit & Storage

Bampton Packaging care deeply about great service. In fact we set the standard when it comes to client service and aftercare. Combine this with our huge experience in the design and manufacture of this classification of packaging and you'll find that we truly are your ideal package.

Whether your needs are for small-sized electronic components or abnormally-sized heavy engineering we will meet and exceed your

expectations. Drawing from our comprehensive range of materials, we are able to supply practically any type of container, in any quantity and in any size.

Our in-house design team is at your disposal to provide solutions that will satisfy your performance criteria and with effective cost of ownership benefits.

We can assess any implications arising from the design of your product that may impact upon its

cost-effectiveness; including any logistical considerations and transportation issues.

Our highly trained team is always willing to go the extra mile. We will happily survey your existing packaging specifications and confirm their validity and, where appropriate, achieve cost-reductions and/or performance enhancements by careful re-design or modification.

After our experience with Bamptons staff on our premises it was commented by many staff and managers on your excellent service.

Export Packing

Our Export Packing facility provides a bespoke service tailored to your exact needs.

We are able to provide the right solution for any item, small or large. Working either to your specifications or in accordance with our recommendations, we pack to levels

of protection against climatic and physical hazards necessary to safeguard your product during its journey to your customer.

We can provide all or any of the aspects of delivering your product, ranging from collecting from your manufacturing point through to

delivering it to your customer's door. You can use our state of the art facility in Nottingham or our highly skilled and courteous staff can operate from a site designated by you.

All the packaging and sales team are very helpful and very responsive to requests.

Packaging Materials

Within our purpose-built, 10,000 sq ft high-rise facility in Nottingham we stock a comprehensive range of packaging materials to MOD, commercial and domestic standards and requirements. Whatever your needs, whether it's a single item on a casual basis or a fully managed

consignment stock solution, we can deliver. We are also able to source non-stock and special items at short notice.

Our trade counter is open throughout the working day to satisfy any urgent demands that

just can't wait. We provide a number of payment methods including credit card, purchase card, credit account (subject to prior arrangement) and of course, cash.

I would like to thank you for your assistance in enabling us to meet our customer's deadline to have 2 interface rings packed and ready for collection on their deadline date. Without your co-operation we would have failed to meet the date.

Defence Packing

Our purpose-built Military Packing facilities provides the capability to pack defence material to all standards, with specific facilities for the packing of Electro-static Sensitive Devices, Grade 'B' and 'C' clean packing, and for Grade 'A' clean packing in our dedicated Clean Room.

We are authorised designers on behalf of MOD as a result of our D Pkg A/DR/14 Package Design Capability Approval within the declared scope stated in D Pkg A/DR/14 Part 2. In addition we stock a comprehensive range of MOD-compliant packaging materials.
